

# Homepage Navigation Items:

## Registration Complete:

After all registration information is keyed in and the submit button is clicked, you will be on the “homepage” of Build Hero.

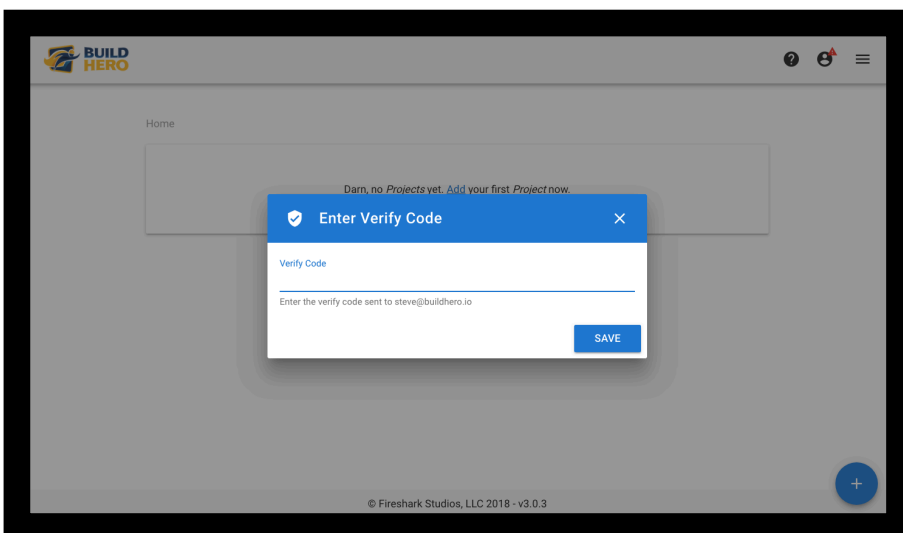

## Avatar Menu:

When clicking on your profile image at the top right (User Avatar) you will get the avatar menu.

This menu includes:

- **Signed in As** – Who you are signed in as currently.
- **Verify your email** – Allows you to get notifications to your email address.
- **Verify your phone** – Allows you to get text notifications.
- **Sign Out** – Sign out of the current account you are logged in as.

## Email Verification Code:

Entering a verification code will allow Build Hero to send notifications to the email address setup on the account.

Enter the code that is sent to your email address.

### **Notifications Include:**

- Discussion Items
- Tasks
- Approval Items
- Invoicing Items

(Note: This feature can be turned on/off at anytime)

### **Phone Verification Code:**

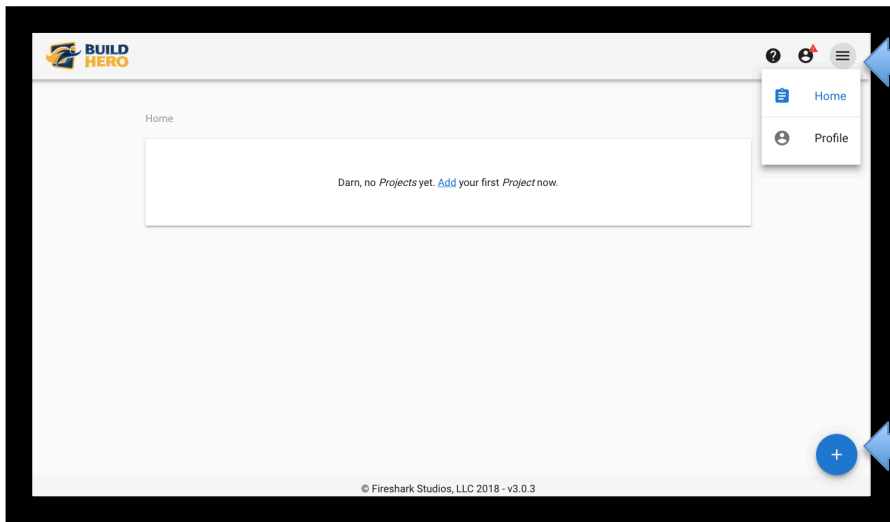

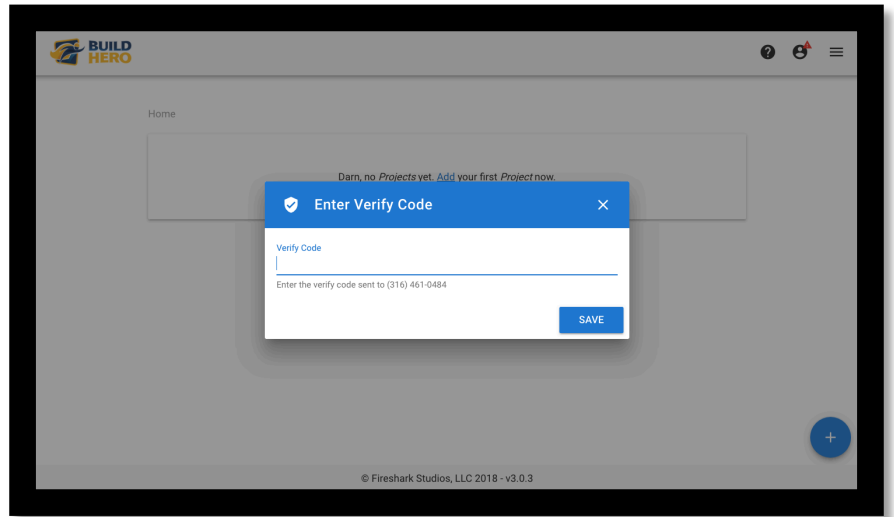

Entering a verification code will allow Build Hero to send text notifications to the phone number setup on the account.

Enter the code that is sent to you via text. Text notifications allow you to text directly back to a discussion item.

#### **Notifications Include:**

- Discussion Items
- Tasks
- Approval Items
- Invoicing Items

(Note: This feature can be turned on/off at anytime)

### **Quick Menu:**

The quick menu displays your home & profile menu options no matter where you are located in Build Hero.

(Note: IOS app has back/forward buttons here.)

### **Plus Icon:**

The "+" icon allows you to add a project or download information. This happens when on the **homepage**.

(These are discussed in "Start a Project" & "Exporting")
